Reproductions are not permitted. This is to certify that all information and the statements contained herein are true and correct.

Ludovico De Luigi

Special Care

Our liquid laminates provide ultraviolet, waterproofing and scuff protection to the Giclées, but be aware to keep them out of bright or direct sunlight. If the surface becomes dirty or stained, wipe with a soft cloth moistened with a little warm water. Never fold or crease the Giclée, this could crack its surface. Keep away from direct heat sources. If a lamp is used, a 40 watt bulb should be no closer than 12 inches.
